

## Summer 2019 Mayor's Report

The spring and early summer weather has been particularly challenging on our City infrastructure and employees. The amounts of rain that we had over the Memorial Day and 4<sup>th</sup> of July weeks were overwhelming. Our employees were out clearing storm water drains and barricading streets. During the July storm we had many trees that lost limbs or completely fell and our Police and Street Dept. Personnel made sure that everyone was safe traveling in town. Our Water and Wastewater Personnel made sure that their vital services were working properly for our residents. I thank all of our City Employees for their great work and dedication to our residents.

We welcome Gjovic Ford to our City and look forward to their ground breaking. We are working to get more users for the industrial park on Eldamain Rd. We will continue to aggressively market the City of Plano to both commercial and industrial companies.

The Splash Pad for Lathrop Park has been extremely busy since the weather has been so warm. We are trying different techniques at Foli Park to mitigate the mess that the Canadian Geese are creating. Hopefully we will be able to correct this problem in the near future. Have a Great Summer,

Mayor Bob Hausler
