

NOW FOR MORE GOOD STUFF!

Plano Rotary Presents,

BENCHES IN THE PARK

The Parks committee was talking about budgeting money for new benches in the parks. So the research for benches started. The Plano Rotary Club was looking for a new service project, and it was mentioned that the City of Plano needs new park benches. So, the Rotary decided to take on this project to help the Plano Parks. (other projects include the city clock, the walking trail at the Y, and Cook Woods). Teaming up with Arts On Fire, so the project began.

Your business, club, or organization can be a part of this historic project!

\$1500 includes full bench, personal artist, clear coating, and placement.

\$775 for 1/2 bench with all the same applications (must wait until remaining bench is painted before being displayed).

\$525 for 1/3 bench. Same applications as above. (Great way to collaborate with your fellow business owners).

All paint supplies purchased through **Arts On Fire**. Benches are being clear coated with an automotive clear coat product that has been approved for this purpose. The Rotary Club made the purchase through a company that supplies products to **Plano Collision Center**. **Mark Savitski**, owner of **Plano Collision Center** is doing the clear coating at his facility, as a volunteer service to the community. They are being installed in public parks by **Plano Public Works** or at private businesses by the individual businesses. They expect the surface should remain for as long as a vehicle paint job-would say 10-20 years.

Applications available, please contact:

Barb at bvnadeau@gmail.com or

Kelly at aof@comcast.net

Left: Raw bench at its starting point.

Upper right: Finished product with single business artwork.

Lower right: Example if a bench was divided by multiple businesses.
